ABOUT ME

Information Systems graduate from Subang State Polytechnic with over 1.5 years of experience in software quality assurance. I have hands-on experience in both manual and automated testing using tools such as Cypress, Playwright, Selenium, Postman, JMeter, and Jest. Skilled in writing test plans, test cases, and system documentation, as well as applying Unified Modeling Language (UML) for system analysis. I actively contribute to Scrum processes, including writing task descriptions and collaborating with cross-functional teams. Proficient in Microsoft Office, with strong planning, communication, and teamwork abilities.
